FOR COLORED PATIENTS.

### Armstrong Manual Station Needs Doctors and Nurses' Aids.

The Armstrong Manual Training School relief station for colored influenza patients is in need of doctors and nurses' aids. Automobiles used for transporting nurses and doctors to the homes of the sick people are also needed. Gasoline and oil will be furnished by the relief authorities. Doctors handling charity cases are asked to report them to the Armstrong Manual Training School, who will see to it that such patients are taken to the hospitals. The office is open from 9 in the morning to 11 p.m., and there is always some one at the desk to give out any information desired. It is suggested that people use the

telephone wherever possible. Dr. A.M. Curtis is in charge of the station

# Red Cross Chapter Will Supply

Them When Stock Is Obtained.

Them When beech.

The distribution of more than 50,000 gauze anti-influenza masks by
the District of Columbia Chapter of
the Red Cross has temporarily exhausted the supply, and the organization is urging more than ever the
manufacture of these simple but efmanufacture of the ever the disease is epiucia.

Monutacture of the best record of the country in the cou and government departments.

The District chapter announces that as soon as a new supply is obtained it is ready to resume its dis-

tribution to the public.

Directions for making these masks are simple. Three thin layers of mus-lin or two thick layers or four layers of cheesecloth are sufficient for a mask. The cloth should be about five

the disease among civilians in fortyfour states. The situation still is regarded as serious in many localities larger cities.

has passed in Army camps, according to a report of health conditions in the Army for last week, made public by the committee on public information.

The report shows a total of 43,799 cases of influenza last week, as compared with 90,393 diving the preceding seven days. Pneumonia also dropped to 11,013 last week from 17,882 in the preceding week.

rom pneumonia.

Arkansas reported today that the peak

over the south and east generally improvement is shown, but the disease still is active in most of the large cities, including New York, where 759 deaths were reported yesterday; Boston, Providence, R. I.; Philadelphia, Cincinnati, Cleveland, Indianapolis, Chicago and Louisville.

Deaths directly attributable to infinence.

These figures do not include full re-ports of deaths for all the weeks in all of the cities; neither does it embrace deaths in small cities and towns of the country where the epidemic has raged and is still in swing. Washington, according to the report. had 1,040 deaths from influenza and 181 from pneumonia. No report is noted of deaths from pneumonia for

Cases in New York.

New York had 8,066 deaths from influenza and pneumonia, 5,049 from in-fluenza and 3,017 from pneumonia. For the week ended October 19 New York had 2,061 deaths from pneumonia, the highest total of any city in the country, while there were in that period 2,156 deaths from influenza.

Philadelphia for the six weeks had

Philadelphia for the six weeks had a higher death rate from both diseases than any other city, with 8,066, of which 5,049 were from influenza and 3,017 from pneumonia. Philadelphia's death rate from influenza for the week ended October 19 exceeded by about 800 the highest death rate in any other of the cities.

For the week ended October 19 Baltimore had 1,357 deaths from both diseases, 564 from influenza and 793 from pneumonia. That city's total for the six weeks ended October 19 was 2,069. The deaths from influenza were 786 and from pneumonia 1,283.

# GIRL SCOUTS FURNISH **FOOD TO 600 PATIENTS**

ference.

Mr. Baruch was greatly shocked upon learning of his death and said that he looked upon young Mahoney as more than an able secretary.

When the body arrives in this country it will be buried from the home of Mr. Mahoney's father, Daniel C. Mahoney at Mahoney and Mahoney arrives in the home of Mr. Mahoney's father, Daniel C. Mahoney.

Crest Has Now Been Passed Twenty-Two Is Record in District for Last 24-Hour Period.

# PREDICT STEADY DECLINE

Twenty-two deaths from influenza were reported to the health department for the twenty-four-hour period ending at noon today. This shows decrease of twenty-seven deaths as compared with the previous period Latest reports from the public health ending at noon yesterday, when the service indicate further subsidence of death list totaled forty-nine. Dr. Fowler, District health officer, expressed the opinion that the death list will show a substantial falling off tohowever, more particularly in the morrow and a steady decline thereafter.

Improvement in Camps.

The crest of the influenza epidemic has passed in Army camps, according to a report of health conditions in the con preceding week.

The report shows that 197 men died at Camp Meade, of whom 190 were pneumonia patients. At Camp Humphreys there were 131 deaths, 126 from pneumonia.

## Doctors Catch Up on Reports.

Arkansas reported today that the peak had been passed in the larger towns, but that conditions were more serious in the rural districts. Connecticut reported a general decline in the number of cases, but that the disease still is active in the larger cities. California has reported a total of 45,700 cases.

In Florida deaths in the cities and towns increased rapidly early this month, but they now show a sharp decrease. In Arizona the disease is spreading to some extent in the mining districts, but elsewhere is on the decline. The total cases reported in Colorado is 11,432, while in other far western states the disease is epidemic in most cities.

Improvement is shown in Washington and Oregon, as well as California. In the northwest conditions continue serious, particularly in Minnesota, but the work of Drs. Mustard and the legister of the public health servents.

More automobiles are needed in transporting the doctors and nurses to the patients. The health officials of the District are highly apprecia-tive of the generous manner in which the bureau of aircraft production has of cheesecloth are builded about five mask. The cloth should be about five by six inches, sewed around the edges. Tape long enough to tie the mask on securely should be attached. The outside of the mask should be mask should be mask should be mask should be boiled every night for five minutes.

Deaths directly attributable to be six weeks ended Octonic the disposal of Lieut. Fight the dispo

### Big Decrease in Deaths.

Seven deaths for the twenty-four Seven deaths for the twenty-four hours ending at noon today were reported from the emergency influenzal hospital. Dr. J. G. Wilson of the public health service, who is in charge, is well satisfied that the District of Columbia now has the disease under control.

There were twenty-four new patients admitted to the hospital yesterday and twenty-one others were discharged. The hospital now has 260 patients, making a total of 326 since it was organized. Deaths at the institution have been thirty-six.

So great has been the success of the Treasury Department, through the Red Cross, under the personal direction of Mrs. William G. McAdoo, in giving relief to employes of that department, that a request has been made to extend the work to the sick of all government departments.

The system under which the Treasury Department is working is simple. A modern card system with a record A modern card system with a record of the sick is kept in the general committee's office. When a case is reported one of the volunteers from the department visits the person ill and learns what aid, if any, is desired. Hot meals are sent out three times a day to the sick and convalescent from the kitchen at the old Emergency Hos.
